the ultimate e-VET-
trainer guide for DIGItal
Transformation

Our Services

Digireact provide a new way to learn and sharing information based on a new platform with the hep of Artificial Intelligence, use of gamification in order to create a ne figure: E-Leader

Our Team

Schools, specifically Vocational Training Center coming from Italy, Portugal and Germany drove by two companies working in the Communication and Information Technology in order to build a Digireact: Digital Reaction against Covid 19 Pandemic

We Can Help

Companies and schools have the same goal, teach and learn information that becomes knowledge . That means improve skylls for teachers, and students but also giving objective to employees in a clear and special way based on new digital instruments

Our Areas of Practice

E – Communication and E- Leadership must began the new key words in a modern age in which we have a lot of on line meeteings

Concentration is basic to reach the goal in all project, in a school or at work, and for that reason we provide a new web tool in order to give an instruments to better communicate to other in a very special way

- Teachers can better teach and be sure about the concentration of their students.
- Manager and Directors can be sure that the employees better understand the goal and actions to be done
- New method to learn easier and completely on demand and online
